[At your fingertips]

At **INDIGO** we offer you the possibility to **grow your Bitcoin portfolio**, creating a community where all cryptocurrency users can add using our bot and its strategies, with automated operations that successfully manage the assets **in their personal wallets**.

Always **under the custody of the user** and with total transparency and security.

[Backtesting]

SPECIALISED IN THE CRYPTOCURRENCY MARKET

The Indigo system is a set of strategies focused on **increasing the volume of Bitcoins** deposited in the user's Exchange.

Our bots operate 24 hours a day, 365 days a year, using strategies derived from the combined use of **Artificial Intelligence** and **Big Data**.

The bot applies the **appropriate strategy according to the market trend**, "bullish", "bearish" or "sideways", to make profits in all scenarios.

[4 Strategies]

We monitor the **top 200 currencies against Bitcoin** to trade them if the situation meets all the requirements, and we also track large capital movements to act accordingly.

We perform a **Bitcoin analysis every 10 seconds** and trade if the situation is favourable and the winning **% is greater than 51%** on each trade.

All our strategies have been developed through **intensive studies of more than 2 years**, always including the "Backtesting" system among others. We know that the market never behaves exactly the same, but these results added to our market analysis system and **the combination of all the strategies, gives positive results** and a stability that we have never found before.

[Technical team]

Our technical team **constantly monitors** the performance and results of the bots.

We are **prepared for all situations**, including "unprecedented" scenarios that we have seen in the past (not being able to operate on an Exchange for 1 hour), and for this it is necessary that a technical team of people is **verifying at all times the optimal state of the system**, and to act as quickly as possible in the event of any unforeseen external contingency.

Human intervention is still essential.

[Smart Hold]

Our operations never stay open "indefinitely", they all have an **expiration system** that does not allow them to remain open for more than a week, although 90% of them are closed within 3 days or even within a few hours.

INDIGO is undoubtedly a highly interesting option for **holding** your bitcoins.

With us you will have the opportunity to see **how your bitcoins grow every month.**

[5 compelling reasons]

Full availability

24/7 (24 hours a day, 365 days a year) platform open to the world.

Simple and automatic

Training **incorporated into the platform** through explanatory texts and videos.

Non-custodial

Assets are deposited with Binance, and are always in the possession and control of the user.

First you earn

Commissions are earned from the **profits generated**.

Additional benefits

Participating in the promotion of the service
(**Network Marketing**)

[Competitive advantages]

**Automated bot
designed by experts**

**State-of-the-art
Artificial Intelligence
with up-to-date history
and predictive grades**

No permanence periods

**User-tailored
banking selection**

**Improve bitcoin
hold results**

[The pillars of viability]

We have worked hard to design the best possible service model and at the same time to be able to offer an interesting business opportunity based on two main concepts:

A MAINTENANCE REASONABLE MAINTENANCE

INDIGO users must be active by paying a small **semi-annual maintenance fee** based on the volume available for bot trading.

B COMMISSIONS THE STIMULUS FOR GROWTH

The user will pay the company a monthly commission **on its profits**, depending on the banking available for the bot's operations.

	INDIGO BASIC	INDIGO ADVANCED	INDIGO PREMIUM
BANKING AVAILABLE	from 500 to 3.000 \$	from 4.000 to 10.000 \$	from 12.000 to 100.000 \$
MAINTENANCE FEE <small>SIX-MONTHLY</small>	18\$	40\$	130\$
COMMISSIONS	32%	29%	25%

[Launch promotion]

NO FEE

DURING THE FIRST THREE MONTHS

For the **first three months** after the launch of Indigo there is **no maintenance fee** and the commission rates are different.

	INDIGO BASIC	INDIGO ADVANCED	INDIGO PREMIUM
BANKING AVAILABLE	from 500 to 3.000 \$	from 4.000 to 10.000 \$	From 12.000 to 100.000 \$
COMMISSIONS	36%	33%	31%

[Double chance]

At **INDIGO** we not only offer you one of the best options you will find to **maximize your cryptocurrency portfolio**, but we have also designed an excellent referral plan that distributes **up to 15% of the returns obtained** on a monthly basis.

With our plan you will be able to generate significant income, just by **sharing with your contacts** our services and with them the opportunity to get into the advantages of the crypto world.

15%

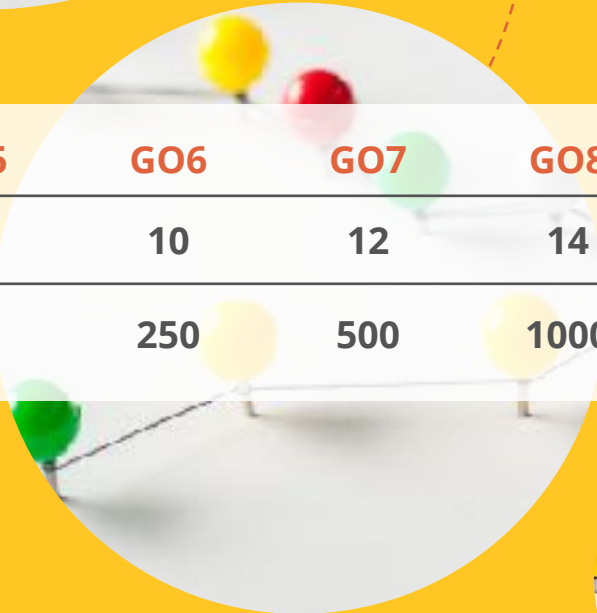

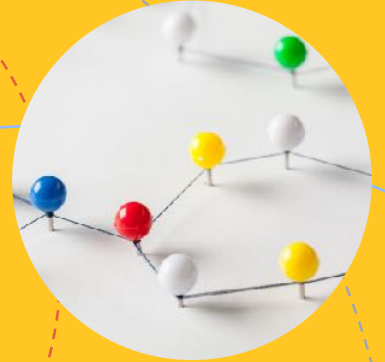

[Ranks]

The rank achieved depends on the fulfilment of the following requirements on the **persons active** in our structure. Both are required.

Ranks	GO1	GO2	GO3	GO4	GO5	GO6	GO7	GO8
Active at level 1	1	2	4	6	8	10	12	14
Active in all 13 levels	-	5	15	45	100	250	500	1000

To enjoy the benefits of the compensation plan you need to have an active bot.

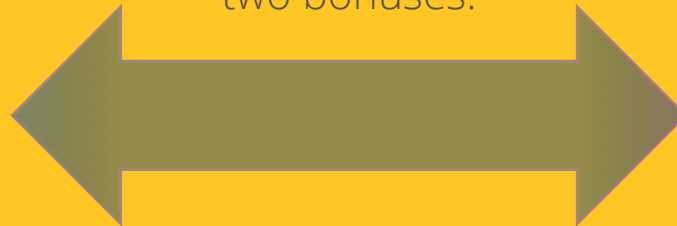

[Bonus]

DIRECT

In our
Compensation Plan
you can benefit from
two bonuses.

TEAM

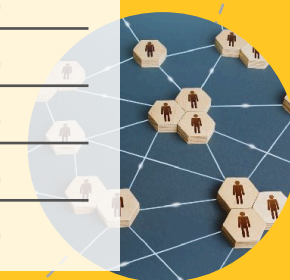

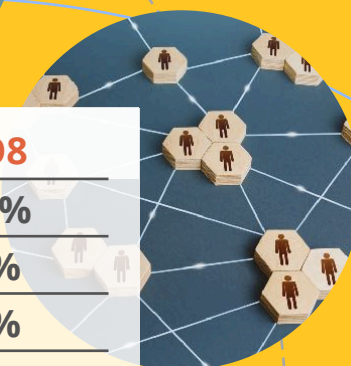

[Direct Bonus]

Rewards based on the performance of direct referrals and indirect referrals **up to 13 levels.**

How to start?

- To start working with us you must **register on the INDIGO platform**.
- Register on **Binance** to use it as a preferred exchange (a minimum trading bank of 500 USAD will be required).
- **Create and configure an API** on the **Binance** exchange to be used by **INDIGO**.
- **Activate your bot** and assign it the desired bank.

* If you are already registered, you only need to create and configure an API.

*We turn the difficult into easy
and the complicated into simple*
